- The Complete SQL Bootcamp
- Power BI Desktop for Business Intelligence
- Python for Data Science and ML Bootcamp
- Business Analysis Fundamentals (IIBA)

## Languages

Polish – native
English – B2

# Kornel Dybalski

### Data Analyst · CRM & Automation

3+ years in data analysis, CRM administration and reporting automation. I answer business questions with SQL (Snowflake) and Power BI, and turn repetitive work into automations in Python, n8n and APIs.

| 200–300 | 100–120 | ~200 | 4 |

## Experience

### Sales Support System Administration Specialist — 08.2024 – 09.2026

**Respect Energy · Warsaw**

- Administered the Salesbook CRM for 200–300 sales users; trained around 200 people.
- Delivered around 100–120 change requests (requirements to UAT) and handled 200–300 bug reports.
- Automated price lists: minimum prices come from SQL instead of being retyped from emails, cutting errors in offers.
- Moved pricing requests from email into the CRM, with full history for every case.
- Configured CRM workflow automations and answered business questions with SQL queries.
- Built 4 Power BI dashboards on Snowflake data: licence costs, new-product funnel, price lists and a key-account campaign.
- Automated a weekly key-account KPI report in Python (API → Excel → email), saving about 2 hours of work per week.

### Junior Analyst — 03.2024 – 07.2024

**Sky Estate · Warsaw**

- Analysed around 40–50 real-estate investments worth millions of PLN (ROI models in Excel).
- Recommended building purchases and commercialisation to the Board; analysed rent rolls in SAP Business One.

### Procurement Administrator (SAP) — 05.2023 – 03.2024

**Cellnex · Warsaw**

- Ran procurement processes in SAP and prepared operational Excel reports for finance and operations.

## Projects (portfolio)

**Warsaw apartment prices** Python, pandas, numpy, shapely
Analysis of 8,665 listings: data cleaning, geo-matching to districts (shapely), a regression model and a price estimator. korneldyb.github.io/projects/warsaw-housing/

**Automated NBP FX report** Python, GitHub Actions, pytest
Daily GitHub Actions pipeline: NBP API fetch, KPIs, report, dashboard and an alert on large moves. korneldyb.github.io/projects/nbp-rates/

**Lead scoring** JavaScript
Sales tool ranking leads as Hot/Warm/Cold with transparent rules, with CSV import and export. korneldyb.github.io/projects/lead-scoring/
