Professional summary

CRM and Sales Operations specialist. For over two years at Respect Energy I looked after the CRM used by 200+ sales reps: configuration, change requests, training and sales reporting. I fix sales processes so reps spend less time on emails and manual spreadsheets and more time with customers. Before that I worked in presales using Salesforce, so I also know the CRM from the rep's side.

Work experience

Sales Support System Administration Specialist (CRM)

Respect Energy, Warsaw | 08.2024 – 09.2026

- Owned the Salesbook CRM (SaaS) for 200+ sales reps: sales pipeline, data structure and user permissions. Trained around 200 users.
- Delivered 100+ CRM changes, from gathering requirements with the sales team through UAT to release, and resolved 200+ user tickets.
- Moved pricing requests from email into the CRM. A rep requests a quote by changing a status, the pricing team replies in the system, and the full history sits in one place. Added automatic notifications and notes on status changes.
- Connected CRM price lists to an SQL database, so minimum prices update automatically and reps only add their margin. Offers are no longer built on outdated prices.
- Built 4 Power BI dashboards (Snowflake, SQL, DAX) for sales and management: new product pipeline, key account campaign, price lists and CRM licence costs.
- Automated a weekly key account KPI report in Python (meetings, active threads, each rep against the team average). It goes out by email on its own and saves about 2 hours of manual work a week.

Junior Analyst

Sky Estate, Warsaw | 03.2024 – 07.2024

- Analysed 40+ investment properties in Excel (ROI models) and prepared purchase and commercialisation recommendations for the Board.
- Maintained rent rolls in SAP Business One and passed them to the finance team, making sure all the data matched.

Admin Procurement SAP

Cellnex, Warsaw | 05.2023 – 03.2024

- Handled purchase orders and procurement processes in SAP.
- Prepared operational Excel reports for the procurement team.

Presales

DrSmile, Warsaw | 09.2022 – 03.2023

- First point of contact for customers: conversations, product presentations and matching the solution to their needs.
- Worked in Salesforce every day on the sales side, so I know what a rep actually needs from a CRM.

Skills

- **CRM and sales:** CRM administration, Salesforce, Salesbook (SaaS), HubSpot, sales pipeline, workflow automation, user permissions, data quality, user training
- **Implementation and processes:** requirements gathering, change requests, UAT, ticket handling, Jira, Confluence, Agile / Scrum
- **Reporting:** Power BI (DAX), SQL, Snowflake, Excel (VBA, Power Query), KPI reporting
- **Automation:** n8n, Make, Python, APIs, system integrations, GitHub Actions
- **Other systems:** SAP, SAP Business One

Projects (portfolio)

- **AI consulting website with an automated lead funnel** (Make, HubSpot, Gmail, Google Calendar): My own site with a call booking form. Each lead goes straight into the CRM, gets a confirmation email, and the meeting lands in the calendar. Work in progress.
- **Lead scoring** (JavaScript): A tool that scores leads with rules and sorts them into Hot, Warm and Cold. CSV import and export. korneldyb.github.io/projects/lead-scoring
- **Automated NBP exchange rate report** (Python, GitHub Actions): Pulls data from the NBP API every day, calculates KPIs and publishes a report with alerts. korneldyb.github.io/projects/nbp-rates
- **Warsaw housing prices** (Python, pandas): Analysis of 8,665 listings, a regression model and a flat valuation calculator. korneldyb.github.io/projects/warsaw-housing

Courses

- The Complete SQL Bootcamp: Go from Zero to Hero (Udemy)
- Microsoft Power BI Desktop for Business Intelligence (Udemy)
- Python for Data Science and Machine Learning Bootcamp (Udemy)
- Business Analysis Fundamentals – IIBA endorsed (Udemy)
- Full list (incl. BPMN 2.0, Jira and Confluence, UML) on LinkedIn

Languages

Polish: native · English: B2

Other

- Driving licence: category B
- Interests: gym, football, chess, travel, new technology
